

CHINENYE PRECIOUS NDIGWE

TECHNICAL PRODUCT MANAGER • PRODUCT OWNER • PRODUCT DESIGN (B2B & B2C) • CRM • CMS

Lagos, Nigeria • 08106500629 • pndigwe23@gmail.com • [LinkedIn](#) • [Portfolio](#)

PROFESSIONAL SUMMARY

Product Manager with hands-on experience in payment reconciliation, compliance-driven invoicing systems, and commission-attribution logic, alongside broader product discovery and delivery across travel and affiliate commerce — delivering measurable commercial impact, including a ₦9M+ revenue booking system and a 90% improvement in technical issue resolution. Combines a hands-on technical background in web development, CMS, and product design with strong commercial and operational understanding — translating complex business problems into scalable product solutions, and building working prototypes personally when it saves development time. Experienced in product discovery, business cases, requirements definition (PRD/BRD), stakeholder management, backlog prioritization, technical scoping, UAT, and cross-functional delivery, from ambiguous business problem through to implementation-ready solution.

EXPERIENCE

Travelstart Nigeria — Lagos, Nigeria

Associate Product Manager (APM) *Sep 2025 – Aug 2026*

- ▶ Owned product discovery and delivery for Nigerian-market products, partnering with Engineering, Finance, Operations, Marketing, and regional Product teams to translate business problems into PRDs, BRDs, and implementation-ready requirements.
- ▶ Rebuilt the signup and onboarding journey into an automated 21-day CRM journey, improving affiliate activation by 5% and cutting onboarding time by 70%.
- ▶ Introduced Tracking ID functionality that improved commission attribution accuracy by 50%.
- ▶ Delivered an Offline Domestic Flight Booking System that processed 60,000+ requests and 30,000+ unique bookings, generating ₦9M+ in revenue in its first year.
- ▶ Improved first-line technical issue resolution by 90% and cut turnaround time by ~60% through restructured support and escalation processes.
- ▶ Launched a Dummy Visa Booking Product that cut unpaid bookings by 20%, reduced visa-related ADMs by 40%, and generated ₦1M+ in revenue over 15 months.

Key Initiatives Led (as Associate Product Manager)

▶ B2B Agent Portal (Product Owner)

- Joined as Product Owner while the portal was still in development, stalled by a communication gap between the Nigerian business team and the South African dev team.
- Served as translator between the teams, drove UAT, and shepherded it to launch in 2023.
- Have owned the platform continuously since — new features, bug fixes, and adoption — now powering ~10% of daily bookings.

▶ CMS Migration — Legacy to WordPress Multisite (Product Owner)

- Own the company-wide migration from a legacy CMS to WordPress Multisite across all markets (~11 total, 3 with 8,000+ pages); started the initiative as Technical Product Coordinator and completed phase 2 as APM.
- Documented the legacy CMS's features, functions, and data schema to map the migration and reduce risk; was a key decision-maker on the new CMS architecture and page UX, and led UAT.
- Migrated the top 3 markets (Nigeria, South Africa, Global) in phases; key pages are live, with the remaining rollout underway in phase 3.

▶ Affiliate Dashboard V2.0 (Product Lead)

- Built a fully interactive, functioning prototype — including an automated commission-reconciliation and payout engine — for a self-service affiliate platform.
- Replaced a shut-down legacy tool serving an affiliate channel worth ~\$240K in annual net profit and 15% of NG bookings.
- Secured technical sizing from the Python and frontend teams and authored the business case that won leadership approval for a dedicated development sprint.

▶ Travel Packages (Product Lead)

- Led discovery and product definition for a new bundled-travel offering to diversify Travelstart Nigeria beyond flight-only revenue.
- Personally designed and built a self-service publishing CMS to generate the product catalogue and booking flow without engineering support.
- Authored a 32-page BRD and ran a 92-task cross-functional launch programme spanning Product, Tech, Finance, Operations, Legal, and Marketing.

- ▶ **E-FIRS Compliance & Electronic Invoicing (Product Lead)**
 - Led requirements for Travelstart Nigeria's mandatory FIRS e-Invoicing integration.
 - Translated booking, revenue, and financial systems into a structured invoice-data model — payment reconciliation and transaction data modeling — for government fiscalisation.
 - Defined the invoice transformation logic — commission handling, VAT mapping, base-fare adjustment — enabling accurate reconciliation with Finance.

Technical Product Coordinator *Apr 2024 – Aug 2025*

- ▶ Served as Product Owner for Nigerian-market products, acting as the bridge between the Nigerian business team and regional Product/Engineering teams.
- ▶ Gathered and translated market, customer, and operational requirements into actionable product specifications; coordinated development, testing, UAT, and release activities across multiple initiatives, including early build of the Affiliate Realtime Dashboard and the Offline Domestic Flight Booking System.

CMS Specialist *Jul 2022 – Mar 2024*

- ▶ Managed and optimized the company's CMS and landing pages, resulting in a 15% increase in lead generation.
- ▶ Executed SEO strategies that boosted organic traffic by 20% and improved page load times by 25%.
- ▶ Implemented A/B testing initiatives that increased user conversions by 20%.

CRM Specialist *Mar 2022 – Jun 2022*

- ▶ Managed multi-channel campaigns across web, email, push, and in-app, driving a 50% increase in quarterly app bookings.
- ▶ Analyzed CRM data to identify customer insights and develop targeted marketing strategies.

Great Source Investment Nigeria — Lagos, Nigeria

Head of Information Technology *Aug 2021 – Feb 2022*

- ▶ Led the implementation and adoption of key tools for a large-scale Street Naming, House Numbering, and GIS Mapping project covering 4,000+ buildings, and provided end-to-end IT support with a 100% incident resolution rate.

Light House Multimedia — Remote

Web Developer *Nov 2020 – Aug 2021*

- ▶ Redesigned the company website and implemented SEO techniques that increased daily traffic by 30%; independently designed and built WordPress sites for clients, including corporate sites, e-commerce stores, and blogs.
