CHINENYE PRECIOUS NDIGWE

TECHNICAL PRODUCT MANAGER · PRODUCT OWNER · PRODUCT DESIGN (B2B & B2C) · CRM · CMS

Lagos, Nigeria · 08106500629 · pndigwe23@gmail.com · linkedin.com/in/chinenye-ndigwe-82a1b4b0

Case studies & live prototypes: pcndigwe.site/work

PROFESSIONAL SUMMARY

Technical Product Manager with hands-on experience in payment reconciliation, payment-provider integrations (Paystack, Quickteller), partner and white-label integrations, and compliance-driven invoicing across B2C, B2B and B2B2C travel commerce. Delivered a booking system that generated ₦9M+ in its first year and improved first-line technical issue resolution by 90%. Brings a web development, CMS and product design background: reads API documentation, writes implementation-ready requirements, and builds working prototypes personally when it saves development time.

EXPERIENCE

Travelstart Nigeria — Lagos, Nigeria

Associate Product Manager (APM) *Sep 2025 – Aug 2026*

- Owned product discovery and delivery for Nigerian-market products with Engineering, Finance, Operations, Marketing and regional Product teams, turning business problems into PRDs, BRDs and implementation-ready requirements.
- Delivered an Offline Domestic Flight Booking System: 60,000+ requests and 30,000+ unique bookings, generating ₦9M+ in revenue in its first year.
- Rebuilt affiliate signup into an automated 21-day CRM journey, improving affiliate activation by 5% and cutting onboarding time by 70%.
- Introduced Tracking ID functionality that improved commission attribution accuracy by 50%.
- Improved first-line technical issue resolution by 90% and cut turnaround time by ~60% by restructuring support and escalation.
- Launched a Dummy Visa Booking Product that cut unpaid bookings by 20%, reduced visa-related ADMs by 40%, and generated ₦1M+ over 15 months.

Key initiatives (as Associate Product Manager)

- **E-FIRS Compliance & Electronic Invoicing (Product Lead)**
  - Led requirements for the mandatory FIRS e-invoicing integration, modelling booking, revenue and payment data into a structured invoice model (payment reconciliation, transaction data modelling).
  - Defined commission handling, VAT mapping and base-fare rules so Finance could reconcile accurately; the first invoices were submitted and approved.
- **Affiliate Dashboard V2.0 (Product Lead · working prototype)**
  - Built a working prototype of a self-service affiliate platform with an automated commission-reconciliation and payout engine, for a channel worth ~$240K in annual net profit and 15% of NG bookings.
  - Secured technical sizing and wrote the business case that won leadership approval for a dedicated development sprint.
- **CMS Migration to WordPress Multisite (Product Owner)**
  - Owned the migration from a legacy CMS across ~11 markets (3 with 8,000+ pages); documented the legacy system, shaped the new architecture and led UAT.
  - Migrated the top 3 markets in phases; key pages are live.
- **Travel Packages (Product Lead · working prototype)**
  - Defined a bundled-travel product beyond flight-only revenue and personally built its self-service publishing CMS and booking flow.
  - Wrote a 32-page BRD and ran a 92-task launch programme across Product, Tech, Finance, Operations, Legal and Marketing.
- **B2B Agent Portal (Product Owner)**
  - Joined a stalled build, bridged the Nigerian business team and the development team, drove UAT and launched in 2023.
  - Owned it since launch; it now powers ~10% of daily bookings.

Technical Product Coordinator *Apr 2024 – Aug 2025*

- Product Owner for Nigerian-market products and the technical first line for the Nigerian team: logged and managed engineering tickets across front end, back end and site reliability, and coordinated development, testing, UAT and releases.

- Owned OTaaS (Online Travel as a Service) from 2023 to 2026: the B2B2C line that let partners sell flights on our infrastructure through landing pages, micro-sites, iframes and white labels, from scoping and product specs to setup, UAT and post-launch support.
- Coordinated partner integrations for brands including MTN, Zenith Bank, Mastercard, Uber and Samsung, bringing together UTM tracking, affiliate IDs, rule-based discounts, Finance booking accounts and partner-specific payment-method rules across teams, and building each partner's Looker Studio dashboard with the data team.
- Led the GIGM two-way partnership end to end: launched their flights white label and became product owner for buses as a new revenue line, writing the proposition and process documents, training Operations, and building a Looker Studio dashboard for management reporting.
- Technical owner for payments across B2C, B2B and B2B2C: triaged Paystack incidents through logs with engineering, and wrote the requirements for Quickteller's v2 API re-integration from its integration documentation.

CMS Specialist *Jul 2022 – Mar 2024*

- Managed and optimized the company's CMS and landing pages, increasing lead generation by 15%.
- Executed SEO strategies that boosted organic traffic by 20% and improved page load times by 25%.
- Implemented A/B tests that increased user conversions by 20%.

CRM Specialist *Mar 2022 – Jun 2022*

- Managed multi-channel campaigns across web, email, push and in-app, driving a 50% increase in quarterly app bookings.
- Analyzed CRM data to identify customer insights and develop targeted marketing strategies.

Great Source Investment Nigeria — Lagos, Nigeria

Head of Information Technology *Aug 2021 – Feb 2022*

- Led the implementation and adoption of tools for a Street Naming, House Numbering and GIS Mapping project covering 4,000+ buildings, with a 100% incident resolution rate.

Light House Multimedia — Remote

Web Developer *Nov 2020 – Aug 2021*

- Redesigned the company website with SEO that increased daily traffic by 30%; designed and built WordPress sites for clients, including corporate sites, e-commerce stores and blogs.
